

## Culinary Master

*When Poliform's alluring Artex kitchen is treated to Studio Italia's interactive customisation service, it opens up a world of possibilities in the realm of contemporary kitchen design.*

The Artex kitchen by Poliform is distinct for the way it expertly combines contemporary design with a natural aesthetic. Made in Italy and realised in high-quality materials, this kitchen boasts ample surface space, clean lines and subtle matte finishes that render it compelling for more reasons than simply its inherent functionality. Destined to become a focal point in any home, this kitchen demands more consideration than a cursory once over or any kind of standard, preset configuration — which is where Studio Italia comes in. Working closely with their clients, the team at Studio Italia offer a boutique experience to ensure that any kitchen meets the specific needs of the individual, from the layout to the function to the finish. And if you've never thought about designing an entirely customised kitchen before, (despite the number of hours you'll inevitably spend in yours) Poliform's variation is the perfect place to start.
